

# DAC Infrastructure Intelligence Watcher - Custom Range Report

Range: 7d

Report layer version: v1.8.0

Generated at UTC: 2026-07-06T20:33:22.198880+00:00

This portrait PDF is generated from the structured custom range JSON summary.

## 1. Range Summary

| Field                 | Value                                        |
|-----------------------|----------------------------------------------|
| Project               | DAC Infrastructure Intelligence Watcher      |
| Snapshot count        | 4                                            |
| First snapshot        | 2026-06-30T08:44:47.357691+00:00-health.json |
| Latest snapshot       | 2026-07-06T18:32:00.687312+00:00-health.json |
| First checked at UTC  | 2026-06-30T08:44:47.357691+00:00             |
| Latest checked at UTC | 2026-07-06T18:32:00.687312+00:00             |
| Overall status counts | DEGRADED: 2, HEALTHY: 2                      |

## 2. Endpoint Status Counts

| Endpoint             | Status counts           |
|----------------------|-------------------------|
| official_public_rpc  | DEGRADED: 2, HEALTHY: 2 |
| explorer_web         | HEALTHY: 4              |
| primary_explorer_api | HEALTHY: 4              |

## 3. Response-Time Summary

| Endpoint             | Average    | Max        | Response class counts |
|----------------------|------------|------------|-----------------------|
| official_public_rpc  | 10773.5 ms | 18180.0 ms | SLOW: 4               |
| explorer_web         | 616.75 ms  | 686.0 ms   | FAST: 1, MODERATE: 3  |
| primary_explorer_api | 462.0 ms   | 604.0 ms   | FAST: 3, MODERATE: 1  |

## 4. Snapshot Timeline - Availability

| #  | Checked at UTC                   | Overall  | RPC      | Web     | API     |
|----|----------------------------------|----------|----------|---------|---------|
| 81 | 2026-06-30T08:44:47.357691+00:00 | DEGRADED | DEGRADED | HEALTHY | HEALTHY |
| 82 | 2026-06-30T13:28:33.493377+00:00 | HEALTHY  | HEALTHY  | HEALTHY | HEALTHY |
| 83 | 2026-07-06T16:44:58.068005+00:00 | DEGRADED | DEGRADED | HEALTHY | HEALTHY |
| 84 | 2026-07-06T18:32:00.687312+00:00 | HEALTHY  | HEALTHY  | HEALTHY | HEALTHY |

## 5. Snapshot Timeline - Response Classes

| #  | Checked at UTC                   | RPC class | Web class | API class | RPC block |
|----|----------------------------------|-----------|-----------|-----------|-----------|
| 81 | 2026-06-30T08:44:47.357691+00:00 | SLOW      | MODERATE  | FAST      | N/A       |
| 82 | 2026-06-30T13:28:33.493377+00:00 | SLOW      | MODERATE  | FAST      | 15103526  |
| 83 | 2026-07-06T16:44:58.068005+00:00 | SLOW      | MODERATE  | MODERATE  | 15138869  |
| 84 | 2026-07-06T18:32:00.687312+00:00 | SLOW      | FAST      | FAST      | 15139297  |

## 6. Interpretation Guide

- Availability status describes whether a service is reachable and usable.
- Response class describes response-time behavior, not availability.
- Older snapshots may show UNKNOWN or null response class because response-time classification was added after the initial watcher release.
- This custom range report is independent observation material and not an official DAC service status page.

## Status & Response-Class Glossary

| Status / Class | Meaning                                                                                                           |
|----------------|-------------------------------------------------------------------------------------------------------------------|
| HEALTHY        | The endpoint or overall infrastructure state is reachable and behaving as expected.                               |
| DEGRADED       | The endpoint is reachable, but one or more checks or response-time indicators show reduced quality.               |
| PARTIAL_OUTAGE | At least one monitored endpoint is unavailable or failing while other endpoints remain reachable.                 |
| UNHEALTHY      | The endpoint failed required checks or did not provide usable responses.                                          |
| FAST           | The observed response-time class is fast for this watcher context.                                                |
| MODERATE       | The observed response-time class is acceptable but not fast.                                                      |
| SLOW           | The observed response-time class is slow and may indicate degraded user experience.                               |
| UNKNOWN        | The watcher could not classify the response-time state, often because older snapshots did not include this field. |
| N/A            | Not available or not applicable for the selected observation, endpoint, or historical snapshot.                   |

Prepared by **JERUZZALEM - DAC Infra Tester**.
